## DIRECTIONS:

Print out several copies of the cover page. Cut out each colored piece. Be careful not to mix them with other sets from other copies of the front page. Printing in color adds visual detail and makes finding the solutions easier. Print 1 copy of the cards and cut them out on the dotted lines.

## IDEAS FOR USING THE CALENDARS:

These are just a few suggestions for using these calendars. Come up with your own ideas to get even more fun and use out of them.

- **TO EACH HIS OWN:** Each student gets a copy of the tangram pieces from the front cover. Randomly pass out the tangram cards to each student. They have to make their pieces match the picture on the card. Then they can switch.
- **TIMED BUILDER:** Each student needs a copy of the front cover pieces. Hand out cards face down. When you say go, students flip them over and build the shapes. The first one done correctly gets a prize! Play multiple rounds.
- **PENTATHLON:** Each student gets a copy of the tangram pieces from the front cover. Hand out 5 specific cards. The student must make each one correctly. Time how long it takes to do all 5. Once done, compare times against other students or against this student's previous attempts.
- **FREE FORM:** Each student gets a copy of the tangram pieces from the front cover. Make your own designs. Sketch them on paper or on blank cards.
