DIRECTIONS:

Print all pages. The first page is your sorting mat for sorting things onto. The following pages of colored scales are the tile sets you must place on the sorting mat. Cut out the tiles along the dotted lines. CAREFUL! Keep each set of tiles separate. If you can print in color, this will be easier, because each set is color coded.

Printing in color, using heavier paper, and laminating are HIGHLY suggested for longer use.

For more fun, you can add velcro to the tiles to help them stick.

IDEAS FOR USING THE CARDS:

These are just a few suggestions for using these cards. Come up with your own ideas to get even more fun and use out of them.
