hand directions cards

www.littlelearninglabs.com

DIRECTIONS:

Print these cards. If you print them out on heavy paper they may last longer. Laminate if possible for better wear. Cut them out along the dotted lines. A blank page has been included so you can make your own.

IDEAS FOR USING THE CARDS:

These are just a few suggestions for using these cards. Come up with your own ideas to get even more fun and use out of them.

- **PRACTICE PRACTICE:** Draw a card. Have students copy the gesture, either when sitting or standing. You might need to face the front of the room so they do the same thing you are doing, otherwise you have to do it in reverse, as you are facing them. Putting the cards under a document camera on the whiteboard makes it easier to see.
- **SIMON SAYS:** Draw a card. Eliminate students who can't mimic the gesture properly. Get a winner from the last student remaining. Repeat.
