# even and odd cards

[www.littlelearninglabs.com](http://www.littlelearninglabs.com)

## **DIRECTIONS:**

Print out a copy of each page. If you print them out on heavy paper they may last longer. Laminate if possible for better wear.

## **IDEAS FOR USING THE CARDS:**

These are just a few suggestions for using these cards. Come up with your own ideas to get even more fun and use out of them.

- **SORTING:** Practice sorting the numbers into evens and odds. They're color coded to help younger students make the connection.
- **SKIP-CLAP:** Get the cards in order, then say them. Only, you choose if you're going to skip the odds or evens. When you get to that number, you clap instead. Ex: 1-clap-3-clap-5-clap... or clap-2-clap-4-clap-6...
- **SPEED MATCH:** Flip up a card. Whichever student identifies it first wins the card. Whoever has the most wins.
- **ORDER:** Hand out a random assortment of cards. They don't have to be all from one sheet if you don't want. Have students order them from least to greatest or vice versa. NOTE: it's way easier for them to do if their cards are all from the same sheet with no missing numbers, obviously.
