number matching cards 0-26

www.littlelearninglabs.com

DIRECTIONS:

Print out a copy of each page. You can also do 2 copies of each page if you want more matching options. If you print them out on heavy paper they may last longer. Laminate if possible for better wear.

IDEAS FOR USING THE CARDS:

These are just a few suggestions for using these cards. Come up with your own ideas to get even more fun and use out of them.

- **MATCHING:** Practice matching the number word cards to the numeral cards.
- **MEMORY:** Using only one page of each from the number words and the numerals, practice matching them when they're upside down. Flip over 2 at a time, keeping them only if you get a match.
- **SPEED MATCH:** Flip up a card. Whichever student identifies it first wins the card. Whoever has the most wins.
