## **HOW TO MAKE YOUR DICE:**

Note that there are 3 styles. You don't have to make each. Make whichever ones suit your purpose.

First, these are best done on card stock. If you can laminate that before assembly, that's even better. Assemble the dice, cutting on the dotted lines and folding on solid lines. Put glue on the small tabs and assembled carefully. Once your dice set is completed, you can begin using them.

- **COLORED STYLE:** The colored letters are best for a color printer. You can still add some decoration around the edges if you want.
- **BOLD BLACK STYLE:** You can color in the background on the bold black letter dice to add visual interest. Stickers or other designs might be welcome, too. These might be preferred if you don't have a color printer.
- **OUTLINE STYLE:** For the outline letters, it was assumed you might want students to color in the letters in solid colors or in color patterns that denotes their team. These also work great if you don't have a color printer.

## **HOW TO USE YOUR DICE:**

- **Know Your Numbers:** Roll a die. Say the number that ends facing up. (1+ players)
- **Know Your Numbers Challenge:** Roll a die. The first person that can say the number gets a point/token/prize. (2+ players)
- **Odd or Even:** Roll a die. Say if the number that faces up is odd or even. (1+ players)
- **Odd or Even Challenge:** Roll a die. The first person to say if the number that faces up is odd or even gets a point/token/prize. (2+ players)
- **Before and After:** Roll a die. Say the number facing up. Tell which number comes BEFORE and which number comes AFTER it. (1+ players)
- **Greater Than, Less Than:** Roll two dice. Say the numbers facing up. Tell which number is greater than the other or which number is less than the other. (1+ players)
- **Addition:** Roll two dice. Say the numbers facing up. Give the sum. You might want to drop the higher numbered dice for this game. (1+ players)
- **Subtraction:** Roll two dice. Say the numbers facing up. Give the difference. You might want to drop the higher numbered dice for this game. (1+ players)
