## DIRECTIONS:

Print pages 1 and 2. Cut out the pieces on the dotted lines. If you print them out on heavy paper they may last longer. Laminate if possible for better wear.

## IDEAS FOR USING THE CARDS:

These are just a few suggestions for using these cards. Come up with your own ideas to get even more fun and use out of them.

- **ADDITION:** Arrange the cards to make true statements, like  $3 \text{ turkeys} + 2 \text{ turkeys} = 5 \text{ turkeys}$ .
- **SUBTRACTION:** Arrange the cards to make true statements, like  $4 \text{ turkeys} - 2 \text{ turkeys} = 2 \text{ turkeys}$ .
- **BLANKS:** Arrange the cards but leave a blank answer or a blank in the problem. Use one of the grey blank answer squares. Students must figure out which number is missing to make a true equation. You can do this for addition or subtraction.
