

# PICTURE PUZZLES

## HOW TO USE PICTURE PUZZLES:

- (1) Draw, glue, or print a picture on the front.
- (2) Print the page 2-sided, so the back lines up with the front.
- (3) Cut out the pieces, following the lines on the back. You won't see any lines on the front.
- (4) Use the numbers to make the puzzles. You can assemble them freely, or on another printed copy of the back, matching up the numbers.
